

Takeda Study

In order to strengthen the humanistic spirits of medical students and personnel along with the emphasis on legal and ethics issues, our former dean of College of Medicine Kun-Yen Huang specifically developed this area by the funding support of Takeda Chemical Industries, Ltd in 1989.

Medical Humanities Area

This area is an expansion of Takeda Study with additional books on medical ethics, laws, doctor-patient communication, and medical charting.

The collection in this area covers the topics of medical history, ethics, philosophy, biographies, and novels, aiming to both broaden and deepen the knowledge of students, lecturers, and medical personnel.

about Kun-Yen Medical Library

The library houses medical and healthcare-related collections, and not only supports the education and research activities of the students and faculty in the University and the medical center, but also functions as the regional medical library.

To meet the founding dean Professor Kun-Yen Huang's expectations for the library's well-run, we aim to serve as the partner of the medical students and personnel by providing immediate information access.

Focus On »» Medical Humanities Collection

To cultivate the essential humanistic values and attitudes, our library specially established "Takeda Study" and "Medical Humanities Area" to display medical humanity-related books.

History

- Oct 1984 Established at Technology Building, Cheng-Hsing Campus (formerly Chien-Kuo Campus)
- Jan 1989 Relocated to Research Building, College of Medicine
- Feb 2009 Renamed “Kun-Yen Medical Library”
