# 真人真事改編

小明醫師身兼醫學院教職，也是年輕的學術研究者，收到一封來自國際性期刊的邀稿，看到信中閃亮著Impact Factor，認為是有投稿價值的期刊，欣喜地完成投稿，也很快收到稿件被接受，但同時被要求付一筆好幾萬元的文章處理費。

他覺得有異，求證圖書館好朋友後，才知道該期刊根本沒有Impact Factor，可能是學術界的詐騙集團，急欲撤回稿件，旋即接到出版社的國際電話，不斷催促繳費也告知可議價，若遲遲不回覆，便逕自將文章刊登。那是他珍貴的研究.....

小明醫師還透漏其實一年多前，他也曾獲邀參加國際會議發表，遠赴國外才發現是一場詭異且出席者稀少的會議，回國後也不敢向同道提及此事.....

# Impact Factor 與 你

首頁 / 成大醫院研究論文發表 / 論文發表獎勵要點

## 論文獎勵金發放標準

### 一、獎勵金發放標準

類別	影響係數	學門排名	獎助金額		
			正式論文	綜合評論/ 簡報型論文/ 技術報告	病例報告 和讀者投書
A類	IF值 $\geq 10$	---	依據IF值提撥定額獎金(備註)	陸萬元整	參萬元整
	---	學門排名第一	壹拾萬元整		
B類	10 > IF值 $\geq 5$	排名 $\leq 5.00\%$	伍萬元整	貳萬伍仟元整	壹萬貳仟元整
C類	5 > IF值 $\geq 2$	5.00% < 排名 $\leq 20.00\%$	貳萬元整	壹萬元整	伍仟元整
D類	IF值 < 2	排名20.00%以後	壹萬元整	陸仟元整	參仟元整
E類	適用於論文刊登在無列入SCI、SSCI、EI之期刊		參仟元整	貳仟元整	壹仟元整

備註：A類之正式論文若選擇影響係數申請，IF落點於 $10 \leq IF < 11$ ，獎金為10萬， $11 \leq IF < 12$ 獎金為11萬， $12 \leq IF < 13$ 獎金為12萬..... $25 \leq IF < 26$ 獎金為25萬，以此類推。

# Impact Factor 與 你

## 國立成功大學理學院「發展國際一流大學及頂尖研究中心計畫」 研究及產學成果獎勵要點

三、本要點之經費由本校「發展國際一流大學及頂尖研究中心計畫」經費項下支應，並依本計畫會計科目之額度控管。唯每人每年由本校「發展國際一流大學及頂尖研究中心計畫」經費所獲得以下獎勵金額總和以 36 萬元為上限。

### A. 『高品質研發創作』獎勵對象為：

由本院依規定審查推薦或由學校總編輯向專任教師、研究人員邀請繳稿日以前一年內 high-ranking、high-impact 之期刊論文或傑出之創作與技轉，並將研究成果摘要依相關規定提送本校研發快訊 The Banyan (Research Express @ NCKU)，經審查接受刊登後依當年經費許可予以獎勵。

### B. 『研究及產學優良』獎勵對象分級如下：

前一年度（1月1日至12月31日）有向國科會、教育部、經濟部等校外計畫補助單位提出研究計畫之編制內專任教師、研究人員。（資料來源以研發處有備案之資料為準），獎勵分級如下：

研究傑出獎：本院編制內專任教師及研究人員前百分之十（含）者頒給研究獎勵金每年最高為 30 萬元整。

優良獎：本院編制內專任教師及研究人員（大於）前百分之十至二十（含）者頒給研究獎勵金每年最高為 20 萬元整。

甲等獎：本院編制內專任教師及研究人員（大於）前百分之二十至四十（含）者頒給研究獎勵金每年最高為 10 萬元整。

469

## 刊登了469篇台灣學者的論文

《天下》搜尋2010年到2017年間，台灣學界刊登在22家疑似掠奪性出版集團期刊的論文數，仔細比對確認後，發現至少有469篇論文出自台灣。

《天下》的另一個研究，搜尋2010年至2017年間，台灣學界刊登在22家疑似掠奪性出版集團期刊的論文數。下載PDF檔案後，耗時比對後確認：至少有469篇論文刊登在期刊上，這些文章來自114所大專院校、15家醫院。

這些期刊都沒有影響係數（Impact Factor），影響係數是學界用來衡量期刊品質與重要性的指標。

「這是一個很高的數字，在德國，（2010年～2017年）我們也只找到1500篇，」洪納說。德國每年畢業博士生是台灣7倍。

### Management of Breast Cancer

Catherine C. Parker, Editor

The lifetime risk of developing breast cancer is about 12% for the average woman. Breast cancers are heterogeneous, and the management of breast cancer has evolved due to advances in technology and a better understanding of tumor biology. Screening mammography provides early detection, and improvements in imaging

## ② 期刊網站的不尋常

- 介紹自家期刊名稱前後不一致

**About the Journal**

**Journal of Neonatal and Pediatric Medicine (NNP)** is a scholarly Open Access journal that aims to publish most complete and reliable source of information on vast topics of nutrition that include various aspects of neonatal perinatal medicine, neonatal intensive care, neonatal treatment, neonatal drugs, neonatal feeding, neonatal nursing, neonatal infections in the mode of original research and review articles, as well as case reports, short communications, commentaries, mini reviews and making them freely available online without any restrictions or any other subscriptions to researchers worldwide.

The peer-review process is designed to ensure the consistency of the submitted manuscripts in line with the set guidelines for a standard open access case report or research paper. The **Neonatal and Pediatric Medicine** has been acquired by OMICS International for dissemination of knowledge in the field of Neonatal health care and medicine with provision of free sharing and transmission of articles under the norms of the Bethesda Statement.

# ⑤ 審稿異常快速，頻繁來信

Hello Dr. 小明, (2017/4/19)

We are pleased to inform you that the article entitled “OOOOOO” has completed the review process and according to reviewers paper needs revision. Kindly find the below review comment and make the necessary changes.....

We would be pleased for early revised submission.

Dear Dr. 小明, (2017/4/28)

We have approached you earlier, since we didn't get any response mailing you once again. We have been **trying to reach you through calls too**.

We are happy to announce Journal has reached the **impact factor of 4.77 for the year 2016-17**, with the great efforts of all research fraternity.

Your research article entitled- “OOOOOO” is ready to be published in Volume 7 Issue 6 of our Neuropsychiatry.

**As you're aware that we follows Open Access mode of publication with the Article Publication Fee of \$2619. Once payment is completed, article would be available online.**

Dear JJ, (2017/4/29)

Actually, I had not received any letter from you before this letter; yet a phone call from India reached me this afternoon, suggesting me reply you by email.

I am grateful to your appreciation, however, **I am surprising that I have to pay the publication fee, which was not mentioned in the beginning.**

From my viewpoint, I do not expect the publication fee for that is an invited article; if I had known about that, chance is I would not sent my paper to you.

Dear Dr. 小明, (2017/5/5, 5/15, 6/29)

As your every much aware of the fact the NPY is indexed in Journal Citation Reports/Science Edition, Science Citation Index Expanded (SciSearch®), Scopus, EMBASE/Excerpta Medica, EMCare which attracts more number of readers. It also holds **impact factor of 1.45**, we follow very **strict review process** under the supervision of expertise editorial board members. Any indexed journal and holding a good impact factor will usually charge for the expenses which they have incurred for processing your article.

Considering your request we can provide you partial waiver and **reduce your payment burden to \$1919** towards your article fee. Hope this amount would be much more affordable to any author for any indexed journal, kindly discuss the same with your co-authors and let us know your final opinion. We are ready to support you in all aspects.

Dear JJ, (2017/6/29)

Sorry, I will retrieve my paper and not publish it at this time for some reason.

Thanks for your understanding.

Hello Dr. 小明, (2017/6/30)

Greetings from Neuropsychiatry (London)..

We are happy to announce Journal has reached the impact factor of 4.77 for the year 2016-17, with the great efforts of all research fraternity.

Please let us know the reason for retrieval; we would help you in all ways, kindly reach us.

For any further support from our side, feel free to contact us.

# ⌚ JCR 除名清單 / 觀察清單

## ■ JCR Title Suppressions

最新版本之除名清單: 因異常引用頻繁，包括自我引用 (Self)、與他刊互引 (Stacking) 等

### Title Suppressions

#### Editorial Expression of Concern

Investigation following on the editorial expression of concern for 2017 data has been completed. Please see the results [here](#).

#### Journals Suppressed from 2018 JCR Data (2019 release)

Metrics for the titles listed below are not published due to anomalous citation patterns found in the 2018 citation data. These patterns result in a significant distortion of the Journal Impact Factor and rank that does not accurately reflect the journal's citation performance in the literature. The Journal Impact Factor provides an important and objective measure of a journal's contribution to scholarly communication. In the interest of fairness and accuracy for all journals, the distortion of the Journal Impact Factor by an excessive concentration of citations gives rise to the need for suppression. JCR staff will monitor these journals going forward and the titles will be included in a future edition of JCR when the anomalous patterns are resolved. Coverage of these journals in Web of Science and other Clarivate Analytics products is not immediately affected by suppression from the JCR. However, the titles may be subject to review to determine if they continue to meet the quality and publication standards necessary for inclusion in Web of Science Core Collection flagship indexes (Science Citation Index Expanded and Social Science Citation Index). For more information, review [our suppression policy](#).

A list of title suppression for [previous years](#) can be downloaded [here](#).

JCR Title	Full Title	Type

# 😊 查證 SCI(E) & SSCI

- 有些期刊尚未進入JCR，但先被Web of Science: SCIE & SSCI收錄
- 待新年度JCR發布時，絕大數都會被JCR收錄並提供Impact Factor
- 例外不收JCR: 異常引用—自我引用過高、與他刊互引頻繁 (下一年度再審)。

- 路徑 1. Master Journal List (查清單。免費。月更新)
- 路徑 1. 2. Web of Science (查文章。訂購。月更新)

## Browse, search, and explore journals indexed in the Web of Science

The *Master Journal List* is an invaluable tool to help you to find the right journal for your needs across multiple indices hosted on the *Web of Science* platform. Spanning all disciplines and regions, *Web of Science Core Collection* is at the heart of the *Web of Science* platform. Curated with care by an expert team of in-house editors, *Web of Science Core Collection* includes only journals that demonstrate high levels of editorial rigor and best practice. As well as the *Web of Science Core Collection*, you can search across the following specialty collections: *Biological Abstracts*, *BIOSIS Previews*, *Zoological Record*, and *Current Contents Connect*, as well as the *Chemical Information* products.

### Embase content

#### List of journal titles in Embase

Embase provides unparalleled coverage of the biomedical literature, with 32 million+ records from almost 8,500 currently published journals. Embase includes journals that are not covered by MEDLINE. Also, Embase covers back to 1947.

↓ Download the full list of journal titles in Embase (XLSX, 714 inclusion in our database, please let us know by filling in this form: Embase\_Coverage)

## Ei Compendex

Ei Compendex is the broadest and most complete engineering literature database available in the world. It provides a truly holistic and global view of peer reviewed and indexed publications with over 20 million records from 77 countries across 190 engineering disciplines. Every record is carefully selected and indexed using the Engineering Index Thesaurus to ensure discovery and retrieval of engineering-specific literature that engineering students and professionals can rely on. By using Ei Compendex, engineers can be confident information is relevant, complete, accurate and of high quality.

## DOAJ (Directory of Open Access Journals)

DOAJ is a community-curated online directory that indexes and provides access to high quality, open access, peer-reviewed journals. DOAJ is independent. All funding is via donations, 40% of which comes from [sponsors](#) and 60% from [members and publisher members](#). All DOAJ services are free of charge including being indexed in DOAJ. All data is freely available.

DOAJ operates an education and outreach program across the globe, focussing on improving the quality of applications submitted.

# 檢視APC費用

## Publication Charges

This journal is an Open Access publication and an article-processing charge (APC) is levied on articles that are accepted for publication by the Editors.

**To proceed, please click [View Publication Charges](#) which will take you to another window in order to select the relevant payment option.**

**Once the payment option has been confirmed you will return to this page where you must select the [Proceed](#) button below in order to complete your submission.**

If your institution, society or other organization is a [member](#), the APC amount may be wholly or partly covered by the membership arrangement. For an article to be eligible for APC coverage through institutional membership, the author submitting the article must be affiliated with the member institution.

We provide a free open access funding support service to help authors discover and apply for article processing charge funding. Learn more [here](#).

APC waivers or discounts are granted on a case-by-case basis to authors with no or insufficient funds. Such waivers or discounts can be requested after you have clicked [View Publication Charges](#) and a decision will normally be made within two working days.

Submission of the article to the journal can be completed once the payment method has been agreed. Any applicable APC can be paid after editorial acceptance and must be paid prior to publication.

APCs for articles submitted from EU countries are subject to VAT (Value Added Tax). EU customers must supply their VAT Number to be exempt from VAT. UK Customers are not exempt from VAT. APCs for articles submitted from Japan are subject to JCT (Japanese Consumption Tax). If you choose to pay by a method other than by credit card, an administration surcharge will be applied.

For more information, see our [article processing charge FAQ](#).

## APC Agreement

Title: TEST2

Journal: BMC Cancer

Type: research article

Author: Ching-Ju Fang

## Welcome, National Cheng Kung University authors!

Thank you for deciding to submit your research to BMC Cancer.

We are pleased to inform you that you will receive a 15% discount on the article processing charge that is payable on publication of papers submitted to BMC Cancer, as National Cheng Kung University is a BioMed Central Supporter Member.

As the submitting author, you are therefore required to arrange payment of a reduced processing charge of £1,164.50/US\$1,823.25/€1,483.25\* if your article is accepted for publication. Since you are based in Taiwan, you will be charged the USD price of US\$1,823.25. This fee helps to cover the cost of managing peer review, data conversion, and permanent online hosting (see [more information](#) about BioMed Central's processing charges).

\* Submissions from EU countries are subject to VAT charges. The VAT rate charged will be the rate applicable to your country. Read more [here](#).

Submissions from Japan are subject to JCT (Japanese Consumption Tax). The rate charged is set by the Japanese government. Read more [here](#).

If you choose to pay by a method other than by credit card, there is a surcharge of US\$75.

I accept responsibility for paying the £1,164.50/US\$1,823.25/€1,483.25 processing charge on this article

I believe that I am covered by an institutional membership arrangement and wish to request institutional payment or discount (as applicable)

I believe I am eligible for a waiver or discount of the article-processing charge

Confirm

## APC Agreement Status

You have been granted a 15% discount on the article-processing charge for this article as your institution is a BioMed Central Supporter Member. The new price to pay is £1,164.50/US\$1,823.25/€1,483.25. Since you are based in Taiwan, you will be charged the USD price of US\$1,823.25.

If you can confirm that you/your institution/your funder will pay the article-processing charge then press 'I agree' below.

\* Submissions from EU countries are subject to VAT charges. The VAT rate charged will be the rate applicable to your country. Read more [here](#).

Submissions from Japan are subject to JCT (Japanese Consumption Tax). The rate charged is set by the Japanese government. Read more [here](#).

If you choose to pay by a method other than by credit card, there is a surcharge of US\$75.

I agree

若誤選第2項將無法立即獲得折扣

Article processing charge for manuscript submitted to BMC Cancer

收件者 [flora@mail.ncku.edu.tw](mailto:flora@mail.ncku.edu.tw)

MS: 1328926683201649 TEST2 Ching-Ju Fang BMC Cancer

Dear Ms Fang

Thank you for agreeing the article processing charge for BMC Cancer. I would like to update you regarding your status with respect to the article processing charge that is normally due if a manuscript is accepted.

You have agreed to pay an article processing charge of GBP 1,164.50/USD 1,823.25/EUR 1,483.25 if your manuscript is accepted. Since you are based in Taiwan, you will be charged the price of USD 1,823.25.

This value includes a subsidy of USD 321.75 (15%) by National Cheng Kung University through a Membership agreement. National Cheng Kung University will be confirming if you are entitled to use their Membership in the next weeks. We will let you know if National Cheng Kung University declines to cover this manuscript. If this happens, you will need to cover the whole fee of USD 2,145.00.

Submissions from EU countries are subject to VAT charges. The VAT rate charged will be the rate applicable to your country. Read more [here](#). Submissions from Japan are subject to JCT (Japanese Consumption Tax). The rate charged is set by the Japanese government. Read more [here](#).

Payment will become due if your manuscript is accepted for publication by the editors. We allow payment by credit card or invoice. Invoice payments are subject to an administrative charge of GBP 50.00/EUR 55.00/USD 75.00. Payments via the online credit card system will also produce an invoice/receipt that can be used for your records and will avoid the GBP 50 administration fee. The article processing charge must be paid before the manuscript will be published.

Kind regards,

BioMed Central Accounts Team 236 Gray's Inn Road London WC1X 8HB Tel: +44 (0) 20 3192 2009 E-mail: [payment@biomedcentral.com](mailto:payment@biomedcentral.com)

## APC Agreement

Title: test

Journal: BMC Cancer

Type: research article

Author: Ching-Ju Fang

You, the corresponding author, are required to arrange payment of a charge of £1,370/US\$2,145/€1,745\* if your article is accepted for publication. If you are based in Taiwan, you will be charged the USD price of US\$2,145. This charge helps to cover the cost of managing peer review, data conversion, and online hosting (see [more information](#) about BioMed Central's processing charges).

If your manuscript is accepted, you will be given the option of paying the invoice. If you believe that payment for your article is covered by an institutional membership arrangement, please let us know using the form below. If you have a genuine inability to pay, you should request a waiver of the processing charge by also using the form below.

\* Submissions from EU countries are subject to VAT charges. The VAT rate will depend on the rate applicable to your country. Read more [here](#).

Submissions from Japan are subject to JCT (Japanese Consumption Tax) which is set by the Japanese government. Read more [here](#).

If you choose to pay by a method other than by credit card, there is a surcharge of 5%.

I accept responsibility for paying the £1,370/US\$2,145/€1,745 processing charge on this article

I believe that I am covered by an institutional membership arrangement and wish to request institutional payment or discount (as applicable)

I believe I am eligible for a waiver or discount of the article-processing charge

I accept responsibility for paying the £1,370/US\$2,145/€1,745 processing charge on this article

I believe that I am covered by an institutional membership arrangement and wish to request institutional payment or discount (as applicable)

I have a BioMed Central membership account number

Select institution from a list

National Cheng Kung University

## Extra details

Any information you supply here will be passed on to the administrator of your membership.

See [more information](#) about Institutional payment.

I believe I am eligible for a waiver or discount of the article-processing charge

## APC Agreement Status

We are processing your waiver request and we will be in contact soon to let you know whether a waiver has been granted.

Institutional Discount Request Resolution: MS 123501044220164

收件者 flora@mail.ncku.edu.tw

Dear Ms Ching-Ju Fang,

Thank you for considering BMC Cancer for your manuscript and letting us know that you are from a supporter member institute. I would like to confirm that you will get a 15.0% discount on the article-processing charge for this article.

This would mean that if your manuscript were accepted you would have to pay a EUR 1483.25/GBP 1164.50/USD 1823.25 article-processing charge on this article. No further discounts will be available for your article. Since you are based in Taiwan, you will be charged the price of USD 1823.25.\*

**\*Price does not include Administration Charges (for invoices only), Value Added Tax (for EU authors only) or any other taxes that may apply in the billing addressee country.**

Please note that eligibility for the supporter memberships is based on the point of APC agreement. If your institution ceases to have an active membership prior to APC agreement your article will not be eligible for the supporter membership discount.

If you can pay this charge, please access your submission by logging into Editorial Manager using the link and instructions below:

1. Log into Editorial Manager - <https://www.editorialmanager.com/bcan>
2. Select the link 'Incomplete Submissions' within the 'New Submissions' section of the author's main menu screen
3. Then select the 'Edit Submission' link within the 'Actions' section
4. Select the 'View APC estimate' link
5. Agree to the APC on the APC payment agreement page
6. Complete submission

If you are unable to access the full text of this publication. Only Access publishers do not charge subscribers to the full text of

再過24-48hr內（實測1-2hr就可以收到）會收到同意接受優惠折扣，請依指示登入投稿系統完成同意接受折扣方案

I hope that you are happy with this, and are able to submit your manuscript to us for peer review.

---

You have been granted a 15% discount on the article-processing charge for this article as your institution is a BioMed Central Supporter Member. The new price to pay is £1,164.50/US\$1,823.25/€1,483.25. Since you are based in Taiwan, you will be charged the USD price of US\$1,823.25.

If you can confirm that you/your institution/your funder will pay the article-processing charge then press 'I agree' below.

\* Submissions from EU countries are subject to VAT charges. The VAT rate charged will be the rate applicable to your country. Read more [here](#).

Submissions from Japan are subject to JCT (Japanese Consumption Tax). The rate charged is set by the Japanese government. Read more [here](#).

If you choose to pay by a method other than by credit card, there is a surcharge of US\$75.

---

# 付款 (在文章被通知接受刊登後)

- 請盡快付文章處理費 (APC)，否則文章出版將被延遲
  - 大多數期刊會有線上付款期限 (5-7天不等)
  - 逾期未線上付款者，即轉為僅能用匯款，必須加收GBP 50手續費.
- 在付款電郵通知內有兩條超連結:
  - 信用卡付款 (建議) : 網上付款，電子發票將隨後發出
  - 支票付款: 出版社會寄發票予投稿者，投稿者才寄出支票，投稿者需另付GBP 50手續費

Research article  
Test for Author  
Diane Wang  
BMC Genomics

Dear Ms Wang

Further to my colleagues email regarding the acceptance of your article, I would like to update you on the status of the article processing charge.

You have agreed to pay an article processing charge of GBP 1,125/USD 1,835/EUR 1,285 on acceptance of your manuscript. Since you are based in China, you will be charged the price of GBP 1,125. Submissions from EU countries are subject to VAT at 17.5%.

Payment can be made through our online credit card system: <http://www.biomedcentral.com/author/manuscript/payment/creditcardpayment/9976037203661795>

Alternatively, you may request an invoice: <http://www.biomedcentral.com/author/manuscript/payment/invoicepayment/9976037203661795>

Invoice payments are subject to an administrative charge of £50.00. The article processing charge must be paid before the manuscript will be published.

Kind regards,

## [Title] Mediterranean diet and risk of frailty syndrome among women with type 2 diabetes.

### [ABSTRACT]

#### BACKGROUND:

Previous research indicates that patients with type 2 diabetes are at higher risk of becoming frail. Emerging evidence also indicates that the Mediterranean diet may prevent frailty in the older population.

#### OBJECTIVE:

The aim of this study was to assess whether a Mediterranean-style diet pattern was associated with lower risk of frailty among older women with diabetes.

#### DESIGN:

This was a prospective cohort study in 8970 women aged  $\geq 60$  y with type 2 diabetes from the Nurses' Health Study. Adherence to the alternate Mediterranean diet (aMED) score was first measured in 1990 and repeated every 4 y until 2010. Frailty occurrence was ascertained up to 2012 and was defined as having  $\geq 3$  of the following 5 criteria from the fatigue, resistance, aerobic, illnesses, loss of weight (FRAIL) scale: Fatigue, low Resistance, low Aerobic capacity, having  $\geq 5$  illnesses, and weight Loss of  $\geq 5\%$ . Those with frailty at baseline were excluded.

#### RESULTS:

During follow-up, we identified 569 incident cases of frailty. After adjustment for lifestyle factors and medication use, the HR (95% CI) of frailty was 1 for the lowest quartile of the aMED score, 0.88 (0.71, 1.10) for the second quartile, 0.69 (0.53, 0.88) for the third quartile, and 0.54 (0.42, 0.71) for the highest quartile ( $P$ -trend  $< 0.001$ ). A 2-point ( $\sim 1$  SD) increase in the aMED score was associated with a 28% (95% CI: 19%, 36%) reduced risk of frailty. The largest reduction in the risk was observed for a higher consumption of vegetables and fruit, as well as for alcohol intake.

#### CONCLUSIONS:

A Mediterranean-style diet pattern was associated with reduced risk of frailty syndrome in older women with type 2 diabetes.

Journal  
scope

*Nutrition, Metabolism & Cardiovascular Diseases* is a forum designed to focus on the powerful interplay between **nutritional** and metabolic alterations, and **cardiovascular disorders**. It aims to be a highly qualified tool to help refine strategies against the nutrition-related epidemics of **metabolic** and cardiovascular diseases. By presenting original clinical and experimental findings, it introduces readers and authors into a rapidly developing area of **clinical** and **preventive medicine**, including also **vascular biology**. Of particular concern are

无尽思念

研究方向: Genetic 神经外科 审稿时间:约6个月 接收率: 约5%

SCI(2015): 6.431 SCI(2014): 6.807

今年4月投稿, 审稿2个月, 4个reviewer, 前三个给了20个问题, 提的还是很有水平的, 感觉懂的很多, 检查的也很仔细。第四个对文章很喜欢, 直接说要发表, 没有问题。给了一个月的时间回复。补了一些表格, 数据, 增加了方法的说明, 按照要求加了讨论, 回复过去, 10天后, 第一个reviewer给了2个关于补充表格的问题, 其他都没意见。回复过去, 3天后通知接收。我导师说这个杂志现在的接收率只有6%左右, reviewer都是专家, 非常仔细, 统计学, 方法学的细节问了很多。

SCI(2016): 4.778 SCI(2015): 1.456

3分几乎是所有的期刊的命脉, 过了3分, 以后就容易看涨, 否则就难。因为一旦过了3分, 整体来说, 稿源会丰富很多, 期刊选择面会比较广, 这样容易收到一些高水平的稿件, 以后就不容易下去。同时, 影响因子本身上涨, 也是重要的原因之一, 所谓好则愈好, 差则愈。

## 摘要

One hundred eighty-four asthmatic children were selected from 8 schools in Tainan City (high PM10 [particulate matter with aerodynamic diameter <10μm] exposure) and Hualien County (low PM10 exposure) in Taiwan, and completed records of dietary consumption, daily peak expiratory flow rate (PEFR), and daily respiratory symptoms for 1 week. The higher prevalence of PEFR less than 80% predicted was found in children of high-exposure district than of low-exposure one, as well as in subjects with high intake of vitamin E than those who took less vitamin E. Furthermore, the risk of declining PEFR appeared to significantly decrease for subjects with both high intake of vitamins C and E and residing in area of low PM10 levels as compared with those with low intake of vitamins C and E and residing in high-exposure area. The beneficiary effect of vitamin C and E intake on PEFR improvement for asthmatic children with low air pollution is suggested.
